

Welcome to AtlanticProCare!

This is an exciting time for the fields of Orthotics (skeletal bracing) and Prosthetics (artificial limbs), with new developments re-shaping patient care. Things that had to be "good enough" for years are being replaced with new materials, new techniques and computer aided technology. Had a brace or an artificial limb before? Now it will be lighter, more comfortable and will work better. Today, what you know from previous personal experience or have heard from other companies is probably old news.

We are the area's leader in these new approaches. New technology, and our own ongoing research and development, means that we can improve people's lives with state-of-the-art solutions that are unparalleled in Maine. We are doing pioneering work in the areas of clubfoot treatment for infants, lower extremity management for Cerebral Palsy, brain injury patients, spinal bracing for aging adult patients and volume management prosthetics for amputees. In fact, people travel from other areas of the country just to receive the care that only we can provide. And if the solutions that you need don't exist, we will create them for you.

For more information about these and all of our other services, or to arrange a free consultation for yourself or someone you know, please visit our website or speak with any of our staff.

Our Pledge to you:

- We know that you had a choice and we appreciate the opportunity to earn your trust.
- We are proud to provide you with the best possible care in the fields of Prosthetics and orthotics. We understand the importance of your participation in your care and will work with you to provide information and resources necessary

to insure the best possible outcomes for you.

- We will do everything in our power to resolve problems that you might be having while you're here.
- We value your time and will strive to minimize any unnecessary waiting while we care for you and for other patients.

Questions?

If you have any questions about your condition, we encourage you to call during our regular office hours (9-5). Our front office staff can answer many of your questions or advise you when to be seen. If your question needs to be discussed with your practitioner, your message will be forwarded and your call will be returned as soon as possible.

Thank you, and we look forward to helping you live the life you want to!
